A Few Words From Tom and Gloria

“In 1995, we formed a family real estate team. Our goal was simple, provide outstanding real estate service. One by one, our customers entrusted us with their real estate dreams. Now, over two thousand transactions later, we continue to build our business exclusively through customer support and referrals.”

“As real estate brokers, we take pride in personally overseeing every transaction from start to finish. We assist buyers, sellers and investors in residential real estate transactions spanning all property types and price ranges.”

“Gloria and I are a highly respected real estate team with diverse experience in full service, residential real estate listing and sales. With the support of past and present customers, we have achieved the highest level of success.”
